

Framery Q

Two is company, four is a party – everyone fits

Framery Q office pod is a multifunctional, soundproof space for 1-4 people to have meetings, brainstorming sessions and important one-on-one conversations in private without disturbing the office – or the office disturbing you.

Comfortable privacy for longer meetings

Framery Q Meeting Maggie

Suitable for meetings, brainstorming and much more. Two Maggie Sofas are always included, and you can choose them with a curved or straight backrest. There are also three different table options available.

- Frame, exterior and sofa colors
- 2 Maggie Sofas

Heads-down work

Framery Q Flow

Designed for uninterrupted heads-down work. It comes with an adjustable electric table that allows you to change your working position from sit-to-stand in a matter of seconds. The Flow has plenty of space inside for a chair and even an extra stool, making it possible to invite your colleague in for a chat or a shared videoconference.

- Frame and exterior colors
- Adjustable electric table

For easy access

Framery Q Flip n' Fold

One of the more convenient and flexible interior alternatives for the Framery Q office pod. Low doorstep, a wider door with an automatic opener, folding chairs and table enable many different meeting arrangements and easy access with a wheelchair.

- Frame and exterior colors
- Accessible
- Automatic door opener

For shared videoconferences

Framery Q Working With PAL

A high table and handy bar stools make the Working With PAL interior layout very efficient for short-term sessions. The shape of the desk is suitable for teamwork for two, private sessions or video conferences.

All electric components can be changed if there is a malfunction. Power consumption is a constant value that is determined by the power usage of the pods' internal components (electric unit, motion detector, light and fans). Framery's products can be plugged into a wall socket. The pods have their own power supplies that give 24 V DC to the lights and 12 V DC to the fans. The lights and fans are operated by a motion detector. Inside the pods, there are country-specific power outlets for charging mobile devices.
