WE MAKE WORK FLOW

Collection 2023 / 2024
eol-group.net

EOL

designs and manufactures office furniture to help clients create unique destination workplaces

Our furniture ranges are inspired by French design and are functional, creative and long-lasting. Most items are available from stock, and we also offer a made-to-order service for custom solutions.

EOL'S EXPERTISE SPANS THREE KEY AREAS

Design and manufacturing

Whether it's wood, metal or textiles, our teams are experts in their craft

Consulting services

Our architects and designers will work with you to create the workspace you have in mind

Logistics and delivery

Our logistics network provides an end-to-end service by stocking, delivering and installing your furniture

+ 250
employees

2 sites
manufacturing
our furniture
in France

+ 7
countries where we
can ship from stock
(FR, BENELUX, UK, IRL & CH)

20,000 m²
of warehouse space
to stock finished
products

Meaningful steps towards sustainable development

In 2017, we placed climate action and environmental protection at the heart of our corporate strategy by defining 30 actions to help us be more eco-responsible.

In 2022, we mapped this strategy against the United Nations' Sustainable Development Goals (SDGs) and established action plans for each goal for all EOL teams and partners.

Based on an environmental impact assessment of our activities, we have selected 9 priority areas to focus on between now and 2025.

Sustainable development

Our 9 key focus areas

GOOD HEALTH AND WELLBEING

- › Reduce the number and the severity of workplace accidents
- › Use Personal Protection Equipment (PPE)
- › Improve working conditions (by investing in machinery for our plant in Eu, northern France)
- › Do not use solvents or CMR substances
- › Comply with the EU REACH regulation for chemical substances
- › Use OEKO-TEX fabrics and fillings (quality label for textiles)
- › Introduce a work-from-home policy for support teams

AFFORDABLE AND CLEAN ENERGY

- › Decrease energy consumption (gas and electricity)
- › Install new LED lighting in our workshops
- › Use energy-efficient electrical machinery
- › Capture waste heat from woodworking processes to use for heating
- › Invest in more efficient machinery
- › Adapt processes to reduce energy consumption
- › Turn thermostats down
- › Install sensors and timers for lighting
- › Optimise the temperature of the curing oven

RESPONSIBLE CONSUMPTION AND PRODUCTION

- › Reduce the amount of raw materials we use and discard (wood, metal, textiles)
- › Use recyclable and recycled materials
- › Seek out alternative materials that are more eco-friendly
- › Cut back on packaging, and use recyclable packaging
- › Re-use primary and secondary packaging (pallets, metal cages, corner protectors, chair packaging boxes, etc.) multiple times
- › Increase interchangeability of components

DECENT WORK AND ECONOMIC GROWTH

- › Reduce workplace accidents and injuries
- › Source services and supplies from the sheltered/supported employment sector
- › Employ people from local communities
- › Employ workers with disabilities

GENDER EQUALITY

- › Address the gender balance of support teams
- › Define objective pay scales based on levels of responsibility

CLEAN WATER AND SANITATION

- › Reduce water consumption (degreasing machine)
- › Comply with regulations on waste discharge
- › Use surface treatment equipment fitted with a reverse-cascade rinse system

CLIMATE ACTION

- › Use transport providers who adhere to the "Objectif CO2" charter
- › Optimise lorry fill rates
- › Reduce print runs for printed catalogues and move towards using digital materials

LIFE ON LAND

- › Use PEFC-certified wood (to promote biodiversity and combat deforestation)
- › Ensure zero pollution (land, water, air), in compliance with applicable legislation

PARTNERSHIPS FOR THE GOALS

- › Make charitable donations
- › Actively seek out sources of recycled components

Our commitments

Our strategy, our day-to-day choices and actions, and our products and services are underpinned by strong values that reflect our ultimate goals:

Promote the wellbeing
of employees

Guarantee the quality
and safety of our products

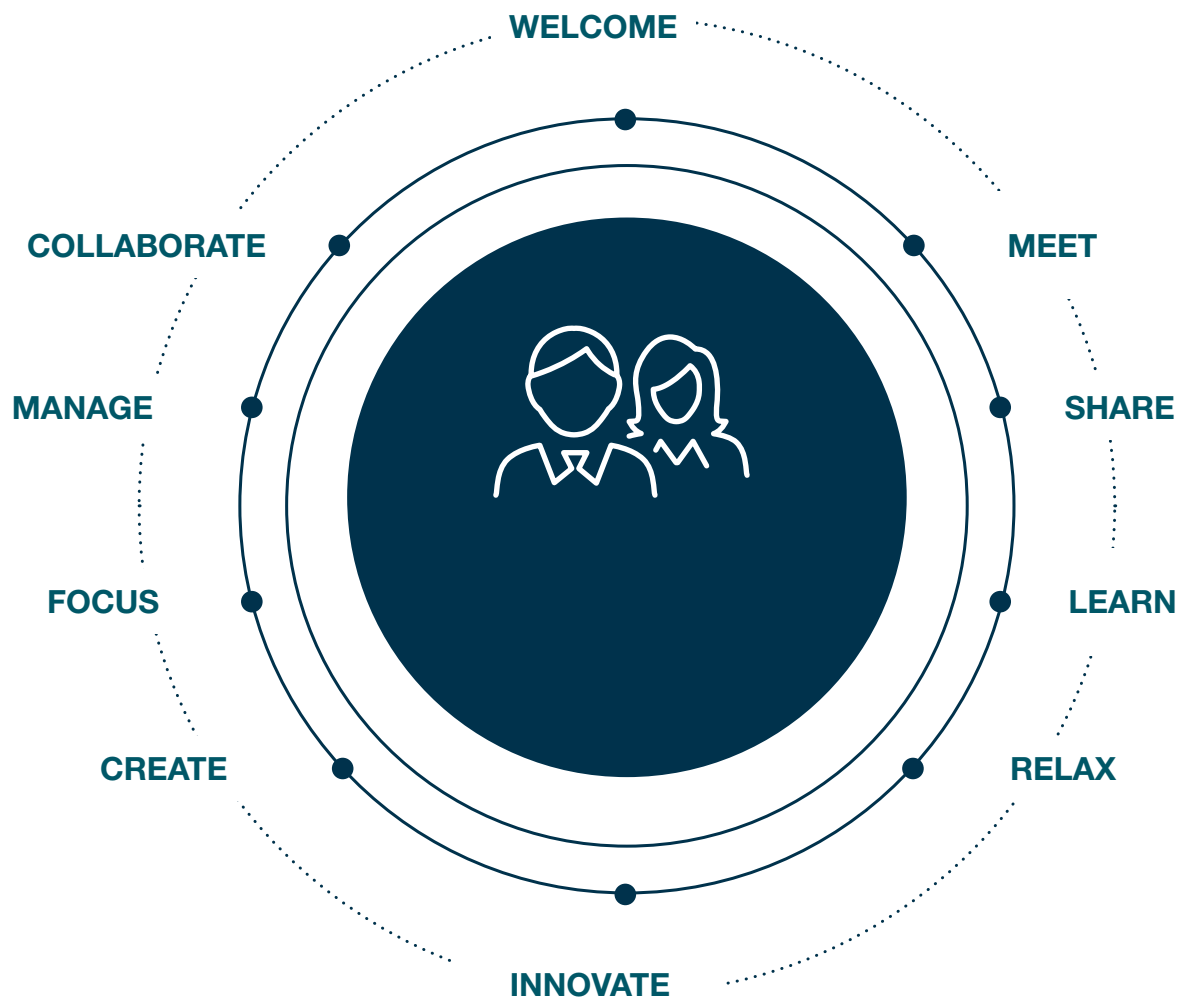

Put innovation
at the heart of all we do

Have a positive impact
on the world around us

OUR APPROACH

A SOLUTION FOR EVERY OFFICE ACTIVITY

All our products are designed and developed with users in mind

Our services

Global solutions for unique projects

More than ever before, companies are recognising that good workplace design equates to more effective management and better performance. EOL has been advising on office fit-outs and refurbishments for over 30 years, so is ideally placed to help you make your project a reality.

WE LISTEN

TO YOUR REQUIREMENTS

Definition of project scope

Determination of your needs
and constraints

.....

WE ANALYSE

POSSIBLE SOLUTIONS

Identification of solutions that
match your needs and budget

Hybrid workspaces: new ways of working

A new era for the world of work

Across Europe, 4 out of 5* large companies have switched to hybrid working, giving rise to new challenges for workspace designers.

WHAT IS HYBRID WORKING?

Hybrid working is a flexible arrangement where employees split their time between working in the office and working remotely (from home or another location).

CREATE QUIET ZONES

Install CHATBOX acoustic pods instead of conventional meeting rooms.

They optimise floorspace and provide quiet havens in the midst of busy open-plan offices, making them perfect for phone calls, private meetings, and focused work.

› CHATBOX p. 184

FACILITATE HOT-DESKING

Opt for self-regulating office chairs and practical table-top power docks so that employees can sit down and start work with minimal fuss.

› Office chairs: ELIOTT p. 116 - OSCAR p. 220
› New power management solutions p. 278

* JLL – “The Regenerative Workplace” – a global survey of over 3,300 office workers

WHAT DOES THIS MEAN FOR WORKSPACES?

› Workspaces must be more collaborative

Basic lounge areas are not enough. Offices need welcoming, inspiring spaces where people enjoy spending time. Spaces like this foster collaboration, creativity and team spirit.

› Workspaces must be more regenerative*

This goes beyond wellbeing to encompass all aspects of the physical and mental health of employees. Regenerative workspaces refresh and energise employees, which in turn boosts performance.

› Workspaces must be more flexible

Modern workspaces should incorporate dynamic spaces that accommodate a variety of activities and optimise floorspace without compromising on employee comfort or wellbeing.

CULTIVATE TEAM SPIRIT

Create a lounge area where teams can get together and share ideas in an informal setting.

And why not include a PING table so employees can enjoy a quick game of table tennis between meetings – ideal for getting the mind and body moving!

Areas like these are essential when it comes to cultivating wellbeing and team spirit.

› MARGOT p. 28

› PING p. 178

MAKE SPACES FLEXIBLE

Create agile spaces for project teams by choosing mobile furniture that can quickly be rearranged for different activities.

When the flexi-space isn't booked for a particular team, other employees can use it as required.

› ARIAL mobile furniture p. 168

› MARTIN multimedia unit p. 180

› SOLANGE partition screens p. 116

Delivery options tailored to your requirements

FROM STOCK OR A CUSTOM ORDER? WE HAVE SOLUTIONS TO SUIT YOUR NEEDS

Every office fit-out or refurbishment is different,
so we offer multiple solutions and delivery options.

Delivery times are dependent on the selected products and finishes.

MINIMALIST STYLE FOR A LIGHT AND AIRY FEEL

A contemporary, minimalist style makes the RIO executive desk an ideal choice for both open-plan and closed-space settings. The glass-topped version creates a particularly light and airy feel.

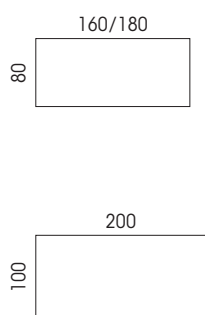

The range includes options to suit any office space: multiple desk sizes, a choice of glass or melamine for the worktop, and three types of return.

7h

That's how long
70% of us spend
sitting down
every day

Why choose a sit-stand desk?

The human body is designed to move, but modern lifestyles and remote working mean we often sit for extended periods of time.

A sedentary lifestyle comes with a number of health risks.

Health risks of a sedentary lifestyle

Musculo-
skeletal
pain

Mental
health
issues

Cardio-
vascular
problems

Diabetes
(Type 2)

Change positions and move around

What do people say about sit-stand desks?*

88%

Agree that sit-stand desks are easy to use

47%

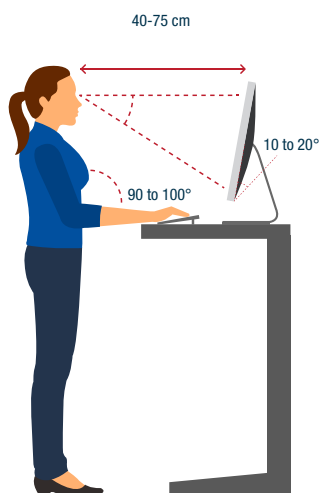

Say they reduce tension in the back, neck and shoulders

65%

Feel more focused and productive

Standing up to work **boosts productivity by 10%**

Good posture

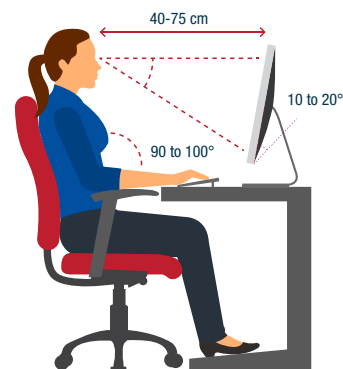

ADJUST YOUR SCREEN

The top of your screen should be level with your eyes and tilted slightly away from you. The screen should be an arm's length away.

POSITION YOUR FEET CORRECTLY

Your feet should be firmly on the ground and slightly apart, forming a triangle with your pelvis.

POSITION YOUR ARMS CORRECTLY

When you rest your hands on the desk, your elbows should form a right angle. Your shoulders should be relaxed, and your forearms should be parallel with the floor. Aim to keep your wrists straight.

KEEP MOVING!

During every 30-minute interval at your desk:

- Sit down for 20 minutes
- Stand up for 8 minutes
- Move around and stretch for the remaining 2 minutes

Switch between sitting and standing every 20 minutes

* Source: US National Library of Medicine

Axel

THE DESK THAT BOOSTS WELL-BEING

Thanks to its sit-stand worktop adjustment system, the AXEL desk keeps users moving and generally improves well-being at work.

AXEL desks can be fitted with either a manual crank or an electric drive, and come in both individual and shared-structure versions. Meeting tables are also available.

2 types of adjustment system

FLEXIBILITY FOR AGILE WORKSPACES

The ARIAL tables are all about versatility, with different heights and depths to suit various meeting/training scenarios. Some models can also be fitted with castors.

The castor-mounted versions provide even more flexibility, allowing users to quickly re-organise a room for different activities.

[o] 2 legs options

◀ **Bridge legs**
Height 73.5
or 104.5 cm

◀ **Mobile bridge legs**
Height 73.5
or 104.5 cm

Simple & agile

Standard height
H. 73.5 cm

High tables
H. 104.5 cm

Multiple shapes and sizes

Square or rectangular tables
seating 2 to 16 people

Versatile

The narrower tables are perfect for
training areas and waiting rooms

User-friendly & stable

Footrest to increase user comfort,
and bracing wires for added stability

Cable management options

Cable ports for direct connectivity or
central dual hinged top-access module

Configure ARIAL

Mobile versions for day-long flexibility

Concentrate

Quiet, focused work

Each member of the team has their own quiet workspace. The SOLANGE screens provide privacy so that everyone can concentrate

Brainstorm

Project mode

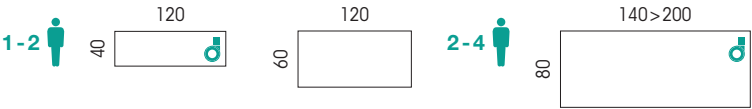

The team quickly rearrange the workspace for a brainstorming session. The MARTIN mobile multimedia unit allows the team to check in with colleagues who are working from home. The castor-mounted SOLANGE screens can be tidied away easily to create more space

80%

of cases of work-related musculoskeletal disorders in 2021/22 affected the upper limbs, neck or back of workers*

How to adjust your office chair

No two human bodies are exactly the same, so it's very important to adjust your office chair to suit you. Correctly adjusting your chair will help relieve muscle tension and prevent musculoskeletal disorders and back pain.

Adjust your seat

Adjust the height and depth of the seat

Make sure your back is supported

Adjust the height of the backrest and/or the lumbar support
Adjust the backrest tilt angle and tension

Spotlight on EOL's seat mechanisms

Permanent contact

Thanks to a system of articulations in the chair's backrest.

The backrest follows the movements of the user's back, thereby staying in 'permanent contact' with it, independently of the seat, which remains static.

Tilting

These mechanisms tilt the backrest and the seat backwards in tandem, at the same angle. EOL chairs feature two types of tilt mechanism:

1 - Central axis tilt: the pivot point is centred under the seat.

2 - Forward axis tilt: the pivot point is located nearer the front of the seat, creating a more natural movement.

Synchro

On chairs with synchro tilt mechanisms, the backrest and the seat tilt together, but at different angles.

This provides optimum support for the whole body, meaning greater comfort for the user. At EOL we have chairs with 4 different types of synchro mechanism:

Self-regulating: automatic adjustment of the backrest tension.

Comfort or Lateral: the backrest tension is adjusted using a handwheel under the side or front of the seat. The seat depth cannot be adjusted.

Ergonomic: the backrest is adjusted using a lever under the side of the seat. The seat depth can also be adjusted.

Ergo+: works in the same way as the Ergonomic mechanism, but incorporates a negative seat tilt mechanism and allows for a greater range of movement.

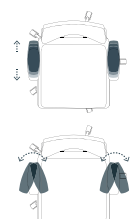

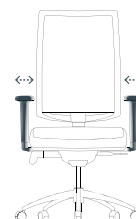

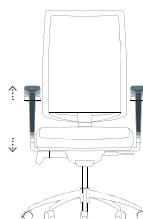

Think about your neck

Add a headrest

Our range includes height-adjustable and tilting models

Relieve strain on your shoulders

Add armrests

1D : Vertical adjustment only

3D : Vertical adjustment, lateral adjustment (left/right) and depth adjustment (front to back)

4D : like 3D armrests, but can be rotated too for optimal adjustability

Flatscreen monitor arms

Adjustable flatscreen monitor arms allow you to position your screen at the right height and thus prevent back and neck pain

Worktop-mounted?

The advantage of worktop-mounted monitor arms is that they are easy to install on any type of worktop. They can be mounted in different ways: through a cable port or hole, or clamped to the rear edge of the worktop.

Or rail-mounted?

Rail-mounted monitor arms are a space-saving solution that free up the work surface. They are designed to be installed on LUCIEN desktop screens.

All our flatscreen monitor arms comply with the VESA 75 or 100 mm standards

Worktop-mounted

A modular system for 1 or 2 screens

1. Decide what range of extension you need

28 cm range - One-part arm design
1-screen or 2-screen version

43 cm range - Two-part arm design
1-screen or 2-screen version

2. Choose a mount/clamp

3-in-1 mount (D. 25 mm)

- For worktops of thickness 10 to 50 mm
- Clamp mount (clamp depth 25 mm)
- Grommet mount: through a cable port or hole in the worktop

Fixing clamp (D. 65 mm)

- For worktops of thickness 13 to 25 mm
- Suitable for use with SOLANGE desktop screens

Take your pick of
1-screen or 2-screen
clamps and mounts

Need to upgrade from 1 to 2 screens?

Simply order a new 2-screen mount/clamp to supplement your existing monitor arm

Technical characteristics

- Aluminium articulated gas-spring 1-part or 2-part arm (range: 28.3 or 43.3 cm)
- Built-in cable management
- 360° rotation
- Screen size: max. 27 inches
- Max. load: 7 kg (per arm/screen)

Flatscreen monitor arms

Worktop-mounted Economy

- 4-point articulated arm on mast
- 1-screen and 2-screen version
- Screen size: 10 to 32 inches
- Max. load: 8 kg (per arm/screen)
- Clamp mount

For 1 screen

For 2 screens

Standard

- 3-point articulated arm with gas-spring mechanism
- 1-screen and 2-screen versions
- Screen size: 17 to 32 inches
- Max. load: 9 kg (per arm/screen)
- Clamp mount or grommet mount (requires drilled hole in worktop)

Rail-mounted Economy

For 1 screen

- Max. load: 8 kg, W. 13 cm
- 2-point articulated arm

For 1 screen

- Max. load: 6 kg, W. 24.5 cm
- 3-point articulated arm

Power management

What makes a good power management solution?

Power management is a key consideration when it comes to creating a pleasant, practical workspace for employees. The best solutions are those that are easily accessible, yet discreet and compact at the same time. Users need to be able to plug in their smartphone, tablet, laptop and more. We have a range of solutions to meet different requirements.

PRICE P. 133

Details and availability

ALL CABLE MANAGEMENT
SOLUTIONS ›

For hot-desking scenarios and flexi-spaces

Quick, direct access to power sockets and hardware ports.

Socket ports

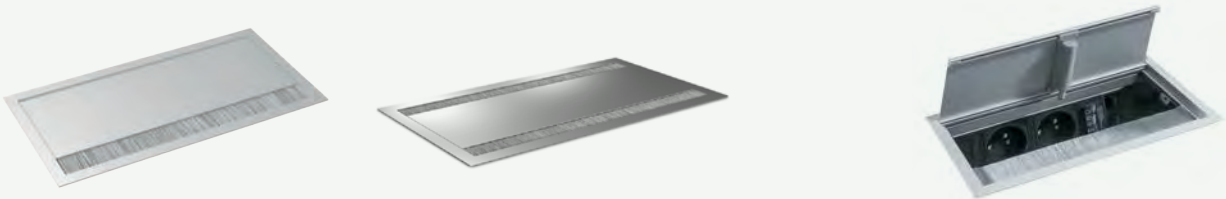

- With or without a sliding cover
- Different connections depending on model: high-power PC socket, USB-A or USB-C, RJ45 or HDMI

Table-top power solutions

- Rectangular table-top power dock (mobile or fixed)
- Worktop-mounted socket outlet

For private desks and premium workspaces

Top-access modules for discreet and convenient power management: the socket feeds are concealed for a stylish finish, but still directly accessible.

Soft-closing top-access modules

- One-way top-access module
- Dual hinged top-access module

With or without a socket feed

Choice of hardware ports: USB-A or USB-C, RJ45 or HDMI

Economical solutions

Choose a plain cable port to keep cables tidy, or a trailing socket to place in a cable trough. Cable trough outlets can be accessed via a top-access module, scalloped worktop edge, or sliding worktop.

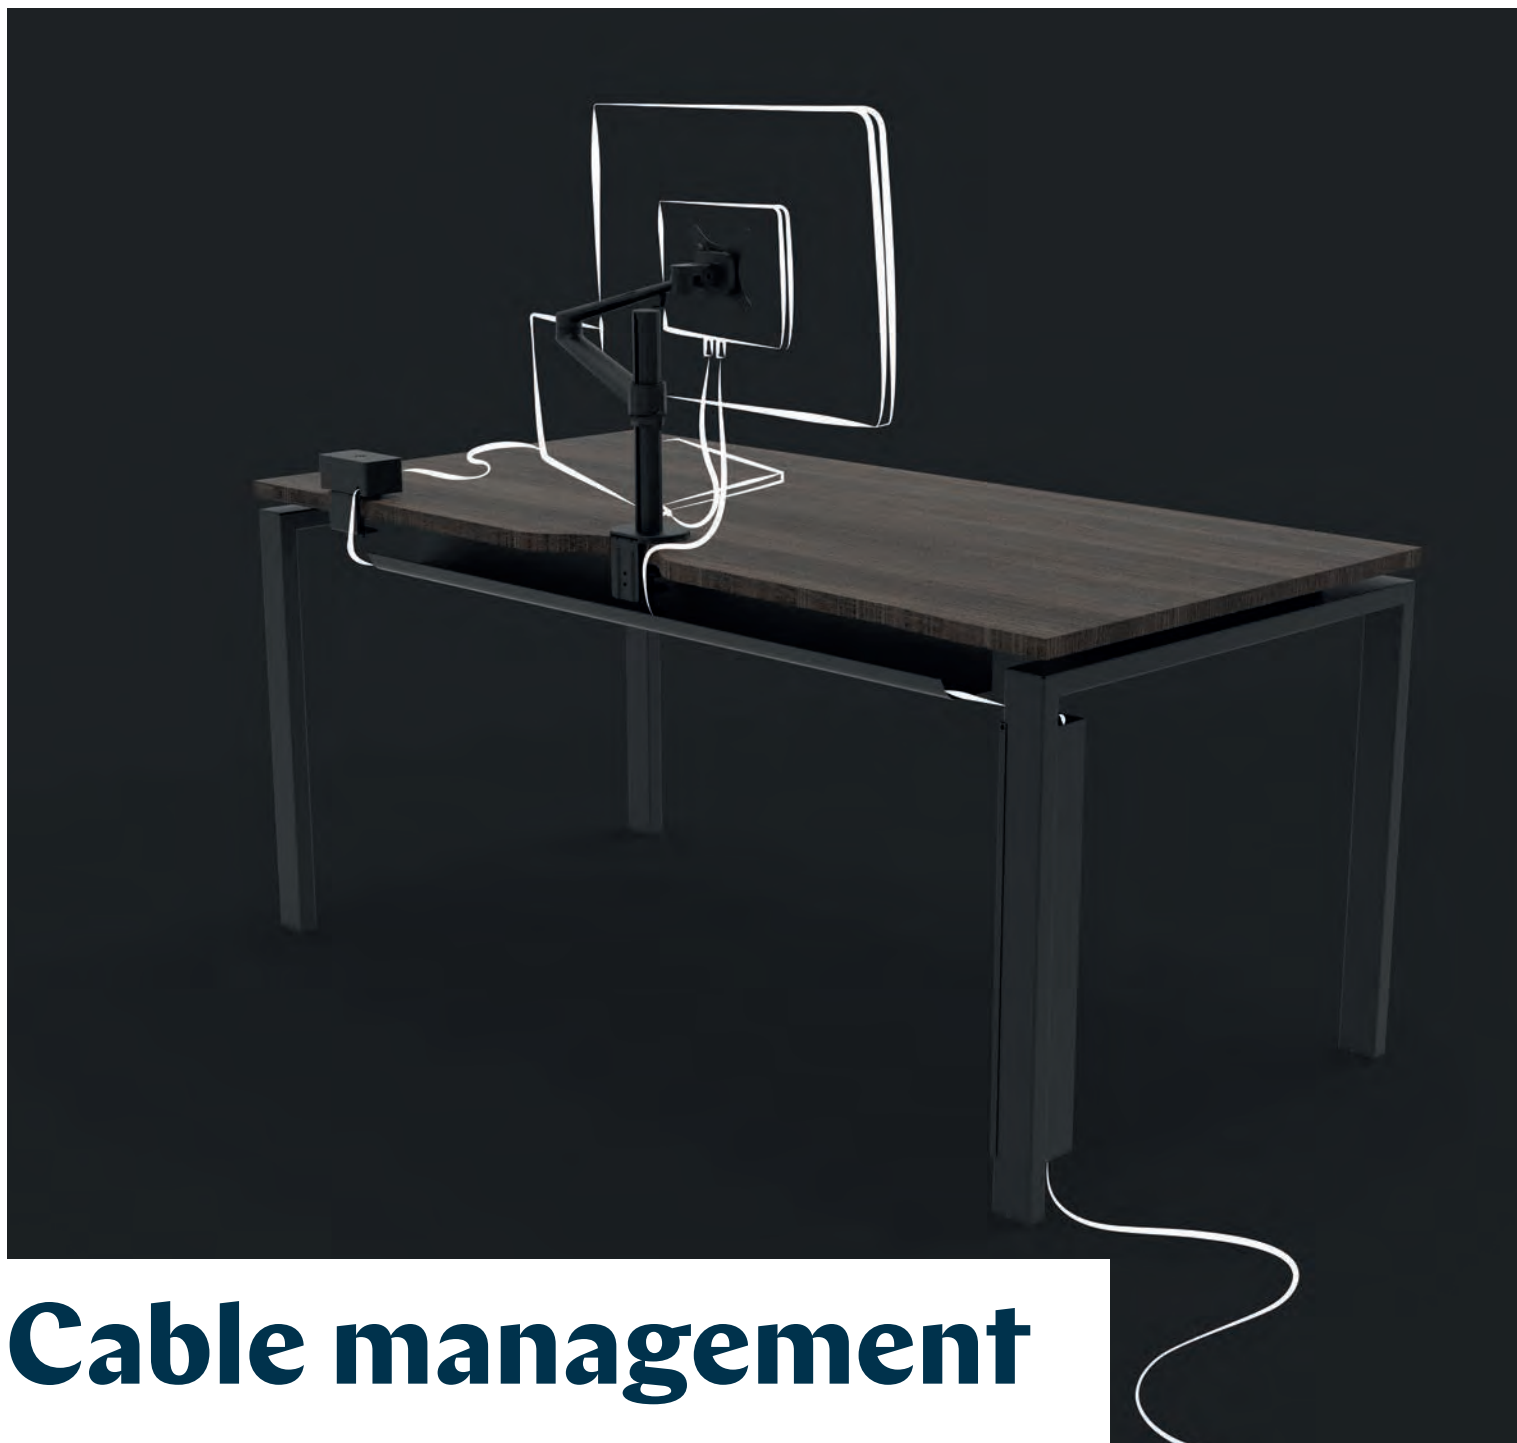

Plain cable ports

Trailing socket outlets

With high-power PC socket, and choice of hardware ports: USB-A or USB-C, RJ45 or HDMI

Power cables

2 or 3 metres

Cable management

Keeping cables tidy

Having a well-organised workspace boosts employees' concentration and wellbeing, so keeping cables tidy is a must! We have solutions for all kinds of desk set-up, including single- and twin-compartment cable troughs and vertical channels and housings.

PRICE P. 135

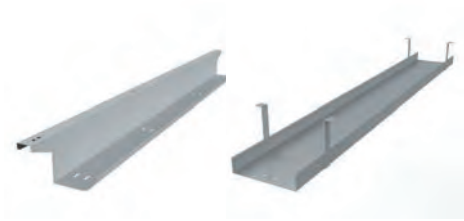

Details and availability

ALL CABLE MANAGEMENT
SOLUTIONS ›

Organise cables underneath desks

Our cable troughs and routing brackets can be installed under individual and shared desks.

Metal cable troughs

Single- or twin-compartment

Wireframe cable trough

Cable routing brackets

Set of 2

Conceal vertically routed cables

Choose between rigid cable housings (clip-on or magnetic) or a flexible solution (extendable channel or zipped sheath).

Metal cable housings

- Clip-on version
- Magnetic version

Extendable vertical cable channel

Compatible with fixed and height-adjustable desks

Zipped cable sheath

3 lengths available

Add a modesty panel

Modesty panels are designed to be fitted to individual desks and help keep everything tidy by concealing cables.

Metal modesty panels

Fabric modesty panels

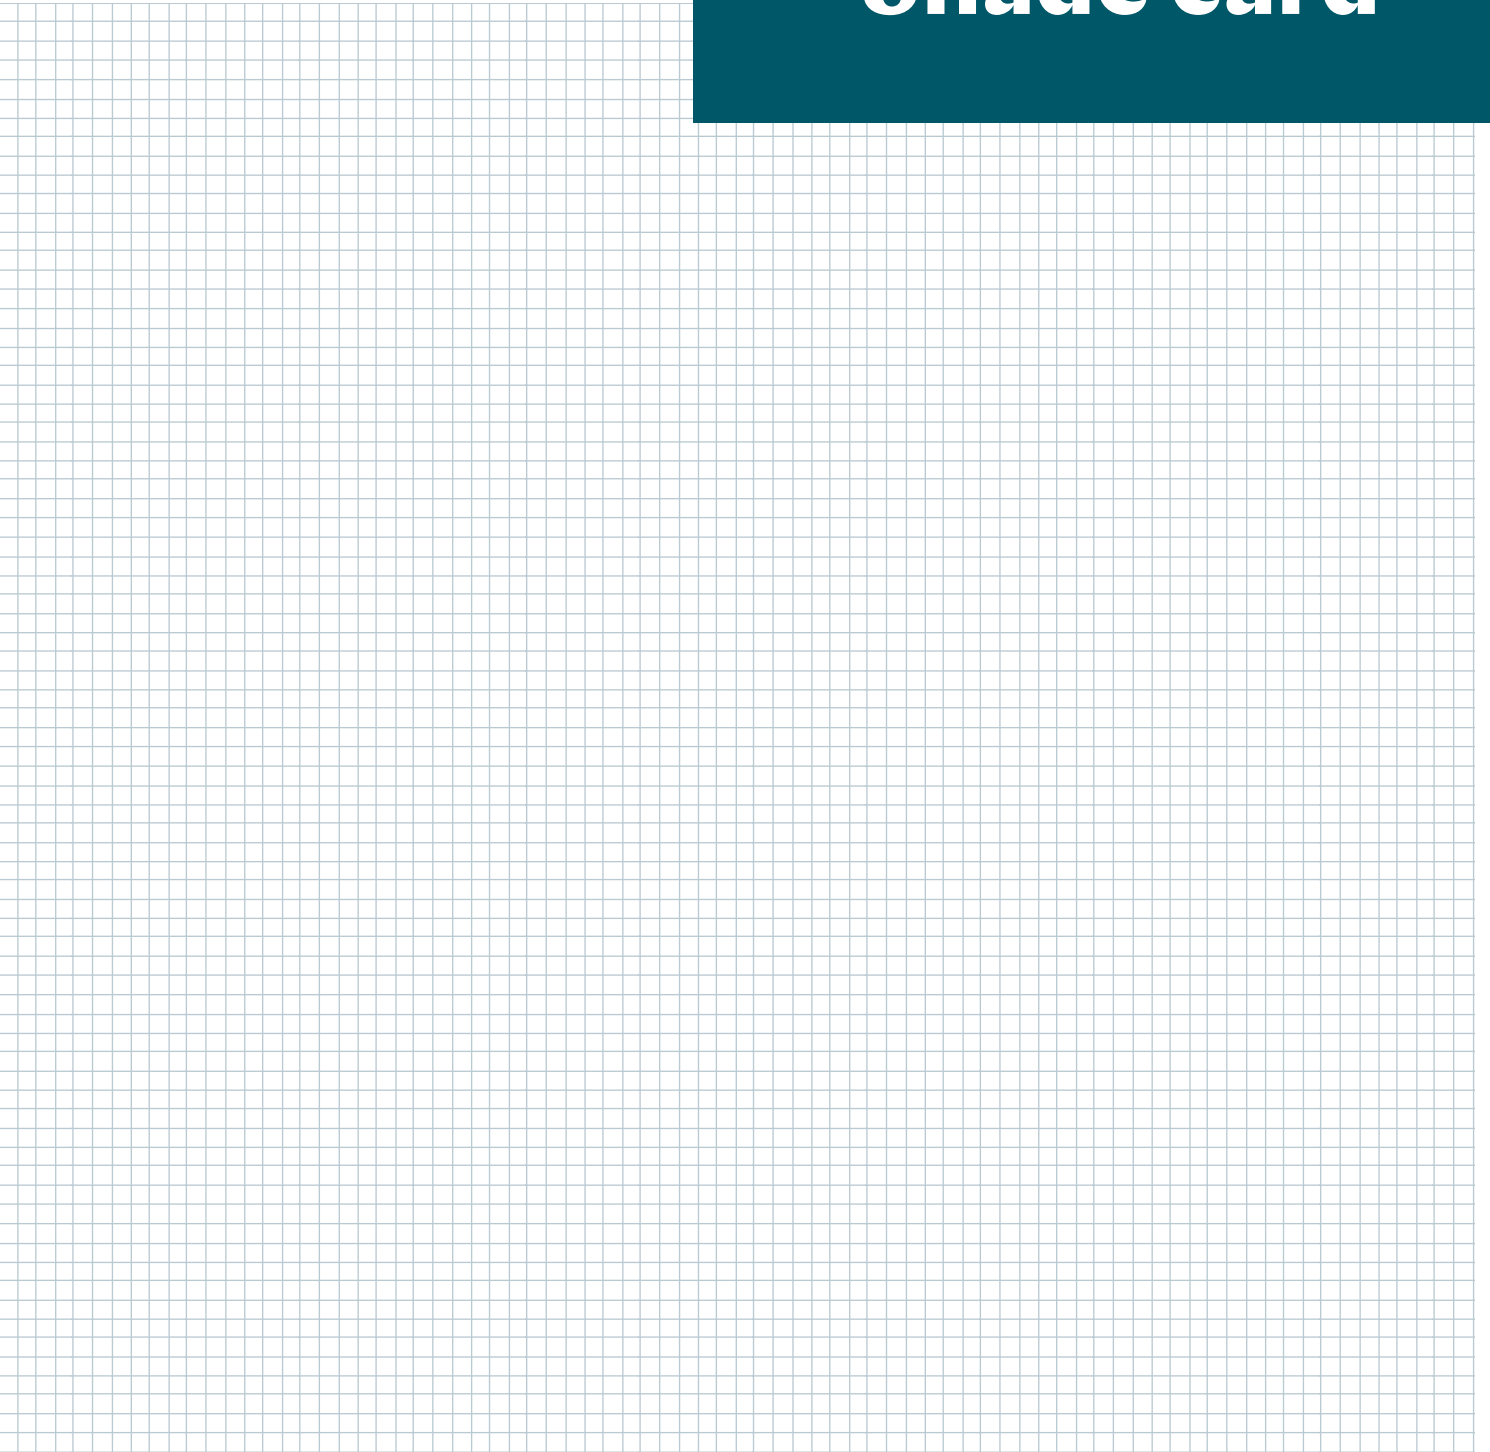

- Can be folded up/down
- Metal plate for additional rigidity

Melamine modesty panels

19 mm thick
