silen BRIDGES

Silen Bridges Bond

Instant huddle hub

It's incredible how these curved minimalist lines affect our perception of space. From coffee breaks to brainstorming sessions, Bridges Bond creates light togetherness zones for small groups in a larger space.

1–6 people

Brings people together
Social office design helps bring out the best in people. Bridges create natural meeting zones in the office to hang out, exchange ideas, or catch up on a project.

Enhanced acoustics
Acoustically-enhanced arcs improve sound focus. That's right, even with open sides, sound can be manipulated to serve the goal of a quieter, more focused workspace.

Innovative design
Engineered by the team that won the NeoCon Innovation Award, in partnership with designer Kai Stania.

Endless customization
Play around with colors, sitting/standing table modes, and optional features like power sockets, lights, and a TV-mount. These help deliver all kinds of focus zones for morning stand-ups, impromptu chats, and everything in between.

Plug-and-play
Easy to install and ready to use. Order a no-frills arc, or opt for a version with power and automatic lighting.

Sustainable
Bridges can last 20+ years and are fully renewable. Fabrics only use SEAQUAL® YARN made from recycled marine plastic. When lights or other bits need replacing, you won't have to buy some large contraption they're embedded in. Only swap the affected thing.

Inner construction panels
Wood, metal, acoustic foam

Cover panels
Acoustic panels covered with 100% post-consumer recycled polyester textile including 75% SEAQUAL® YARN made from sea plastic.

Side trims
covered with 100% post-consumer recycled polyester textile including 75% SEAQUAL® YARN made from sea plastic.
