Silen Space Gen 2

The new standard for office pods

Space Call

 1 person

Exterior size (W × D × H)
110 × 110 × 228 cm

Interior size (W × D × H)
95 × 105 × 208 cm

Weight 325 kg

Space Work

 1 person

Exterior size (W × D × H)
145 × 110 × 228 cm

Interior size (W × D × H)
130 × 105 × 208 cm

Weight 390 kg

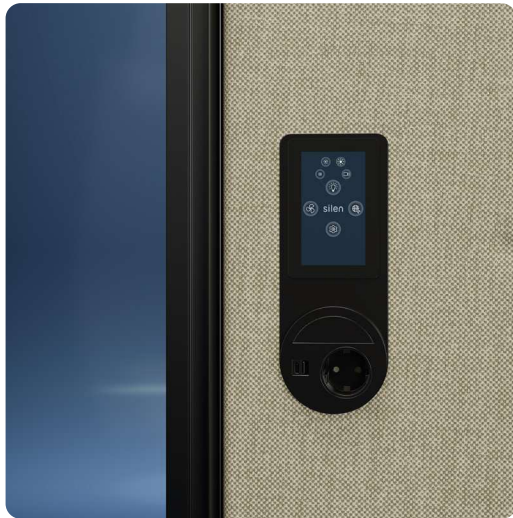

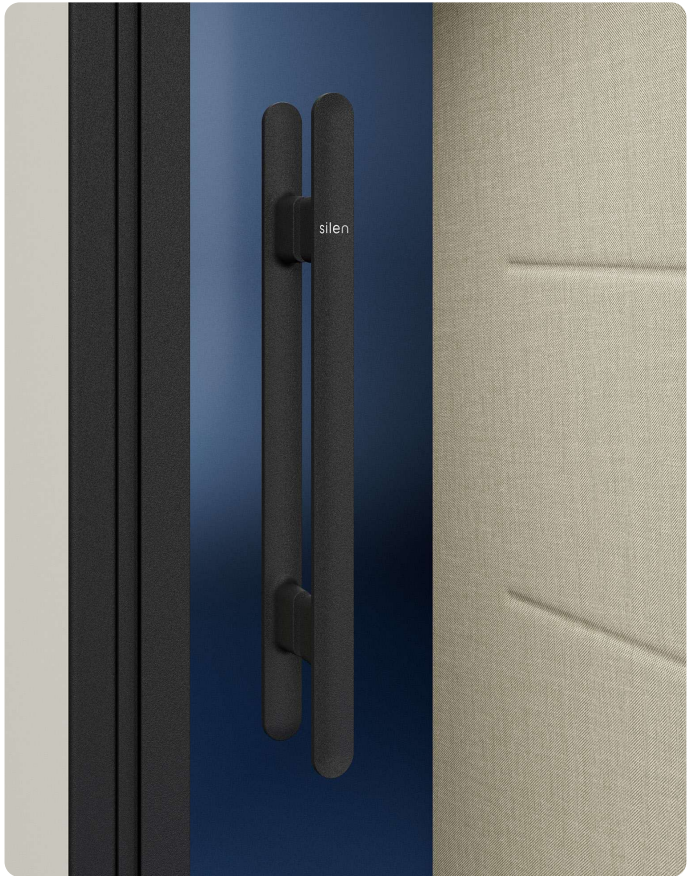

Space Meet 2

 1-2 people

Exterior size (W × D × H)
238 × 110 × 228 cm

Interior size (W × D × H)
223 × 105 × 208 cm

Weight 556 kg

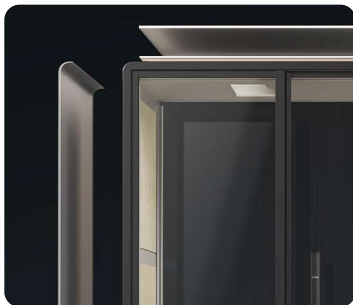

Space Gen 2 is born from uncompromised obsession

We never chose between beauty and performance, we mastered both.
Designed by leading engineers and designers working as one, every detail has a purpose.

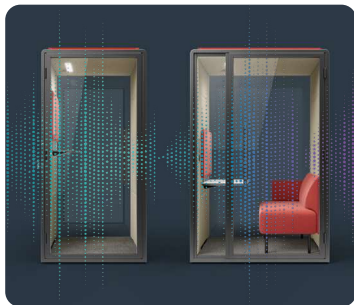

Timeless design excellence

Designed by leading engineers and Red Dot-recognized designers working as one, Space Gen 2 combines refined proportions, visual simplicity, and structural intelligence to integrate naturally into any modern workspace.

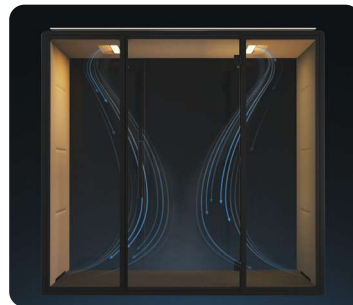

Ultimate two-way privacy

Certified Class A noise reduction delivers true acoustic privacy in both directions. The new structural platform protects performance over time, reducing installation risks and ensuring consistent results even after relocation.

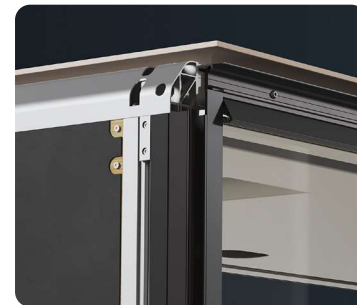

Designed around comfort

Engineered around real user comfort. Advanced ventilation delivers airflow up to 2x above typical office standards, while intelligent lighting modes and refined acoustics support both quick calls and longer focused sessions.

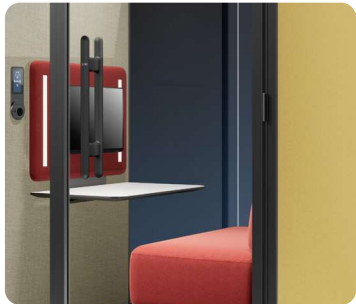

Ultimate flexibility

Designed to adapt as offices and layouts evolve. Integrated wheels, lightweight construction, and compact modules make pods easy to move, transport, and install. Built for repeated assembly, relocation, and reconfiguration with consistent performance over time.

∞ **Retrofit-ready longevity**

Built to stay relevant for years. A retrofit-ready structure enables functional upgrades without replacing the pod, while swappable interior and exterior layers allow easy visual refresh.

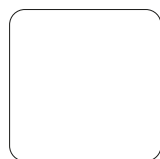

♻️ **Sustainability at the core**

Designed for long lifecycle performance. Replaceable parts, recyclable materials, and a structure built for disassembly allow repair, upgrades, and decades of use. Backed by clear sustainability documentation.

Space Gen 2 colors and materials

Exterior colors

Chalk White

Charcoal Black

Cotton Grey

Blush Pink

Sand Yellow

Stone Grey

Sage Green

Taupe Grey
